

Tile Leveling System

CLIPS

FAST & SIMPLE

Easy Snap-Off design

MATERIAL

Polypropylene

SIZE

1mm, 1.5mm, 2mm

DESIGN

Slots on both sides allows mortar to disperse evenly to eliminate potential voids

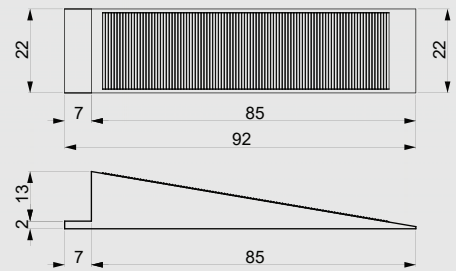

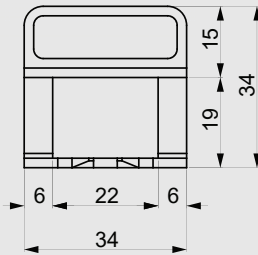

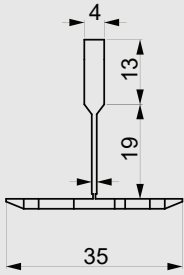

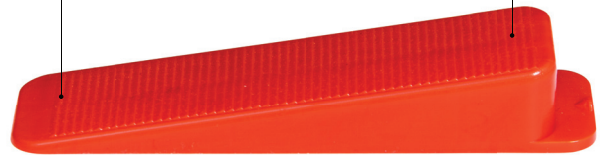

WEDGES

EASY TO USE

Round back end for increased thumb comfort

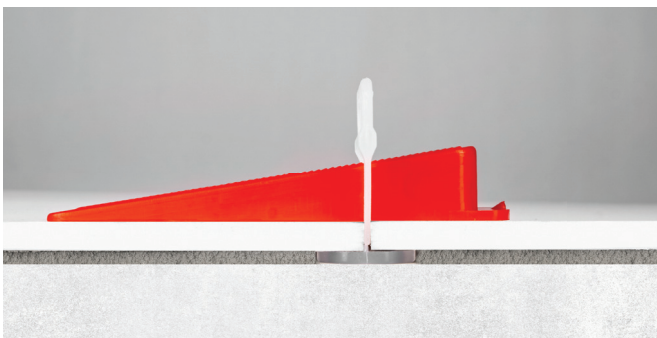

MATERIAL

Polypropylene

1mm, 1.5mm, 2mm

Beorol tile leveling system is used upon installation of rectified tile formats made of porcelain, ceramics, glass, stone, and marble, where narrow grout joints are needed. Our leveling system allows linear and vertical alignment and ensures efficient, precise, and lippage free installation.

LEVEL

Anchor adjusts to the tiles so they remain level throughout the installation

ALIGN

Designed to address variations in tile thickness

SPACE

Produces a 1mm, 1.5mm and 2mm wide grout joint between tiles

HOLD

Holds tiles firmly in place to ensure a lippage-free surface
